

Aqua Holland™ – Going green has never looked so good

Aqua Holland allows storm water to filter through the surface, reducing runoff and filtering pollutants, improving water quality.

Forest Blend

Pewter

Tuscany

Eco Brick™ – Aesthetically beautiful and eco friendly design

Eco Brick allows for natural storm weather drainage and ground water recharge making the paved surfaces ecologically sound and economically smart.

* MSD Approved

The Eco-Brick Permeable Paver™ is the perfect solution for permeable pavements that support storm water management. The Eco-Brick Permeable Paver allows for natural storm water drainage and ground water recharge, making the paved surface ecologically sound and economically smart.
